ABOUT ME

I am not afraid to face new challenges regardless of their nature. Since I was a child, I have always been interested in knowing what surrounds me. I cannot start a project without being fully committed. I believe that through the work we do we can make a significant change in our surroundings and that is the motivation that guides me.

SKILLS

Working under pressure
Resilience
Teamwork

PROGRAMMING

C	☆☆☆	SQL	☆☆
Python	☆☆☆	Java	☆☆
C++	☆☆☆	R	☆

LANGUAGES

Spanish - Native
English - Advanced
French - Medium

EXPERIENCE

Universidad Carlos III de Madrid (UC3M) - Computer Security Lab (COSEC) - Cybersecurity Researcher. 2024 - Present.

Use of Provenance Graphs in the design of an Advanced Persistent Threat Intrusion Detection System and characterization of APTs.

Study of the Cyber Threat Landscape Evolution and the use of Machine Learning models to attribute and characterize APTs.

CSIC - Instituto de Tecnologías Físicas y de la Información - Cybersecurity Analyst & Data Scientist. 2022-2024.

Cybersecurity and Privacy Protection Research Group (GICP) 2023-2024.

- Analysis of the main post-quantum cryptography algorithms and their incorporation in Digital Industry models and Digital Twins.
- Development of a Neural Network model for Human Activities Recognition (HAR) with the support of AWS systems.
- Design of a state-of-the-art secure Digital Twins system for implementation with IoT devices for industrial environments.
- Implementation and use of cloud computing frameworks for data analysis and Natural Language Processing.

Cryptography and Information Security Research Group (GiCSI) 2022-2023.

- Development of Machine Learning and Natural Language Processing techniques for threat identification in data streams.
- Generation of connectivity networks in Python and development of graph analysis techniques.

Universidad Internacional de la Empresa (UNIE). 2022-Present

- Director of the Master's Degree in Big Data & Business Intelligence. 2023-2024.
- University associate professor. Degree in Mathematics the Master's Degree in Big Data & Business Intelligence. 2022-Present.
- Expert Advisor for the Design of the Cybersecurity and AI Master's Degree Verification Reports. 2023.

Jornada CIU - Coordinator and Founder 2017 - 2020. Web creator and manager 2017 - 2020.

Colegio Mayor Loyola - Dean 2017-2019. Responsible for IT and scientific resources 2016-2019.

PUBLICATIONS:

- [Attack structure matters: Causality-preserving metrics for Provenance-based Intrusion Detection Systems](#) (10/2025).
- [A Digital Twin Threat Survey](#) (10/2025).
- [La Investigación de la Ciberseguridad en España & Dataset of cybersecurity experts in Spain](#) (06/2023).
- [Following Negationists on Twitter and Telegram: Application of NCD to the Analysis of Multiplatform Misinformation Dynamics](#) (11/2022).

EDUCATION

PhD Student in Computer Science and Technology. Applications of AI in Threat Detection - UC3M. 2024 - Present.

Master in Cybersecurity - IMF Business School & Universidad de Nebrija. Developed by Deloitte 2021-2022.

- Master's Thesis: *Forensic analysis of a Windows 10 device.* (EXCELLENT)
- Distinguished modules: *Cyber Intelligence, Forensic Analysis.*

Master in Artificial Intelligence - Valencia Internacional University 2023-2024.

- Master's Thesis: *Self-similarity in social movements* (EXCELLENT)
- Distinguished modules: *Mathematics for Artificial Intelligence, Optimization Algorithms, Unsupervised Learning, Supervised Learning.*

Double degree in Mathematics and Computer Science - Universidad Autónoma de Madrid 2017-2022.

- Final Degree Project in Mathematics: *Convergence of Fourier series and the Gibbs phenomenon* (EXCELLENT).
- Final Degree Project in Computer Engineering: *Formation of opinions in social networks and the influence of the media.* (EXCELLENT)

EXTRA

IBM Quantum Computing - VIU
Cryptography by Dan Boneh- *University of Stanford*
Blockchain - *University of Buffalo*
Agile methodologies. Scrum - IMF
Distributed Computing Spark - *University of California*
Python AI & Data Visualization - *Matplotlib, Tensorflow, Scipy*
scikit-learn, Networkx, Pandas, Seaborn, Numpy, Streamlit...

AWARDS & OTHERS

Honorific mention - *CMU Loyola*.
EXCELLENCE certificate - *UNAV*.
Two-time winner of the Math Olympiad. 2012,2013.
Scouts (Volunteering) - National Youth Representative.
International Baccalaureate - *IES López de Mendoza*.
ESTALMAT - Royal Academy of Exact, Physical and Natural Sciences.
Driving License B.
